

Massage

Cranial Sacral Therapy..... \$65 per hour

A gentle, non-intrusive method of evaluating and enhancing the function of the Central Nervous System. Cranial Sacral Therapy (CST) complements the body's natural healing process and is increasingly used as a preventative measure to bolster resistance to disease. It has been proven effective in treating a wide range of medical problems associated with pain and dysfunction.

Swedish Relaxation..... \$65 per hour

The most common type of relaxation massage. You will enjoy one hour of deep serenity during which your major tension areas will be relieved and your busy mind will come to rest. Your suggestions about the type of pressure, music, oils and aromatherapy are encouraged.

Foot Reflexology..... \$65 per hour

An ancient modality of health and healing tracing back to the Far East. Reflex areas in your feet (as well as your hands and ears) correspond to all of your major organs, glands and body parts. By stimulating these reflex points, health in the corresponding organ is promoted via your body's energetic pathways. Your foot reflexology session will be deeply relaxing while providing health benefits throughout your entire body.

Deep Tissue..... \$70 per hour

An aggressive and poignant massage that carries the clear intent of reaching the deeper layers of muscle tissue. Deep tissue massage is recommended for people with chronic injuries or those who enjoy strong, firm pressure. This massage is not recommended for your first massage experience.

Sports Massage..... \$70 per hour

A harmonious mixture of muscle stretching and deep tissue massage for the tired or overworked body. Sports related injuries are welcome and will be especially addressed during your session.
